LESS IS MORE

As we approach the autumn/winter season our favourite look is minimal effort for maximum effect. Fashion has grown up for the next season, so stock up on neutral colours and earthy tones in classic, wearable cuts and fabrics - pencil skirts in tweed, silk shirts, and tapered trousers. There is no need to over-accessorise this look; keep it simple by wearing one statement piece.

FOUR MINUTE, FOUR STEP MAKEOVER

1 Use Mascara - According to the experts, mascara is top of the list when it comes to guaranteeing you look 'done', even if it's the only make-up you're wearing. Defining the lashes will ensure you look alert and finished. We love Ruby & Millie Mascara in Black.

2 Get Glowing - Cream highlighter is a must have when you're in a rush and want your skin to look its best. Try Model Co Luminosity Shimmer Stick for a subtle shimmer. Or, for the ultimate quick fix, prep skin with Vichy Liftactiv CxP Total (€31.50), it perks up the complexion instantly, making it feel firmer and leaving it with a healthy radiance.

3 Go Multi-Purpose - Invest in versatile cosmetics, such as stick blushers, thick crayon liners, creamy-textured shadows and lip tints that can be used on eyes, lips or cheeks - they'll save you time and money. Try Nars Multiple in Malibu (€41).

4 Tidy Brows - Groomed brows are a speedy way to smarten your look. Eyebrow grooming is an easy way to make your face look finished with minimum effort. Tweeze any stray hairs, then carefully apply an eyebrow powder or pencil to fill in any gaps and elongate brows at the outer end. We love Brow Zings by Benefit (€33).
