

ATKIN AND THYME

Earthy Delights

Bringing the outdoors in never goes out of style with its proven ability to boost morale and positivity. These earthy delights from Atkin & Thyme will introduce a subtle sense of nature to any scheme.

The Fern Chest of Drawers and its co-ordinating bedside will have you day dreaming of a gentle summer's breeze rustling amongst the treetops. Crafted from mango wood, these generous drawers sit elegantly on matt brass-finish legs and are complemented by matching handles.

Featuring a floral design that's carved, painted and sanded to perfection; the Atika range comprises a chest of drawers and bedside cabinet. Punctuated with cut glass handles, when paired together these gorgeous pieces create a boutique aesthetic.

Transform the work space with the Zen writing desk. Topped with a large curved desk surface and equipped with two drawers, this design has been given a warm dark stained finish reminiscent of Indian Rosewood and resulting in a striking look.
