

# ATKIN AND THYME

## Jungle Fever

Tropical tones are being injected into the home for SS22. These fun colour punches and natural elements will breathe warm air into interior schemes and add a sense of adventure.

The Carnaby Footstool in Emerald Green is evocative of the depths of the rainforest and should be paired with gold and wooden accents to bring out the luscious colour characteristics. As bright as a cacao pod, the Archie Armchair in Yellow Velvet is full of zest and life, creating a statement while its high back and arms help with relaxation.

The Emmeline Pink Velvet Armchair in all its beauty presents an art deco feel with its curvaceous cushion and arm structure. The Helsinki Pendant Light boasts a pale mango wood shade and brings in a hint of the natural elements without impacting the rainforest. The delicate hue of the Calvin Chair in Olive Green Velvet and Linen is as gentle as a water-lily and softens any scheme with its ergonomic seat and sweeping design.

*The Emmeline Armchair and Calvin Armchair are also available in additional colourways. Please visit [www.atkinandthyme.co.uk](http://www.atkinandthyme.co.uk) to view the full range.*
