

ATKIN AND THYME

Moody Accents

Injecting black accents into the interior space adds contrast and a striking impression. The Fandango Collection is a sight to behold with its distinctive ridged finish and brass-plated legs and handles that embody luxury and elegance. When paired against neutral colour schemes and coordinated throughout the home, this collection offers both storage and style in office spaces, bedrooms, kitchens and living areas. Also available as a sideboard.

Drinks trolleys are not just handy for a Friday night tippie, but can also act as stylish storage. The Greenwich Drinks Trolley effortlessly combines work and play, and has a sophisticated antique brass design that cannot be overlooked. The matching Greenwich Bedside Drawers give a decadent finish to the master suite or guest room.

Beautifully classic, the Hex Bedside Drawers and Apollo Table Lamp were created for adding class to contemporary environments. The added black hue to the lamp's brass base will accentuate the space and add layers of depth.
