

Inspirational Pairings with Naturewall

Opposites really do attract. Unconventional combinations can create the ideal design moment. With 2022 focusing more and more on bringing natural materials and colourways into the home, Naturewall's statement wall coverings add in an organic element, creating a soothing environment for all. An easy, no-fuss home update, that's accessible for all those looking to bring the outdoors in. Using FSC certified timber, the diverse collection of sustainable, on-trend wood panels are readily available throughout the UK.

Combine different materials

Teaming natural wood with marble is an understated artform. The contrast of the cool marble against the warmth of wood balances the ambience and is a perfect play on textures.

SlatWall Acoustic Natural Oak (Grey Felt) £129.99

Supersize a small space

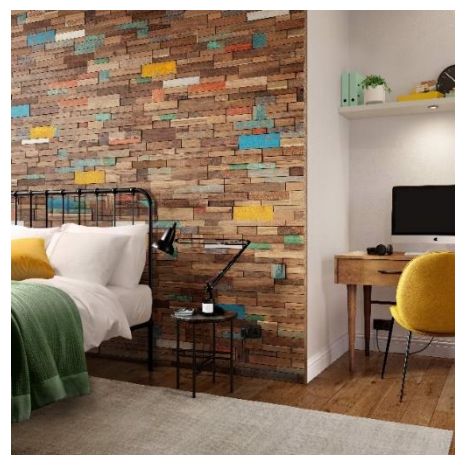

Ordinarily, lighter colours and airy elements are the 'go to' update to deceive the size of a space. Adding dark, dramatic textures to a nook or small wall can often create a big visual opportunity. Opting for minimal furniture in similar textures but with opposing tones will elevate the scheme and keep it eye-catching.

SlatWall Acoustic Smoked Oak 159.99

Statement Colour

When selecting colours to use in neutral spaces, don't shy away from bright statement hints. Yellow and turquoise shades make for a cheery enhancement. When paired with natural walnuts and teak woods these hues will create a welcoming aesthetic.

Java Teak Panels £99.99
