

Risk:Value 2019

Destination standstill.

Are you asleep at the wheel?

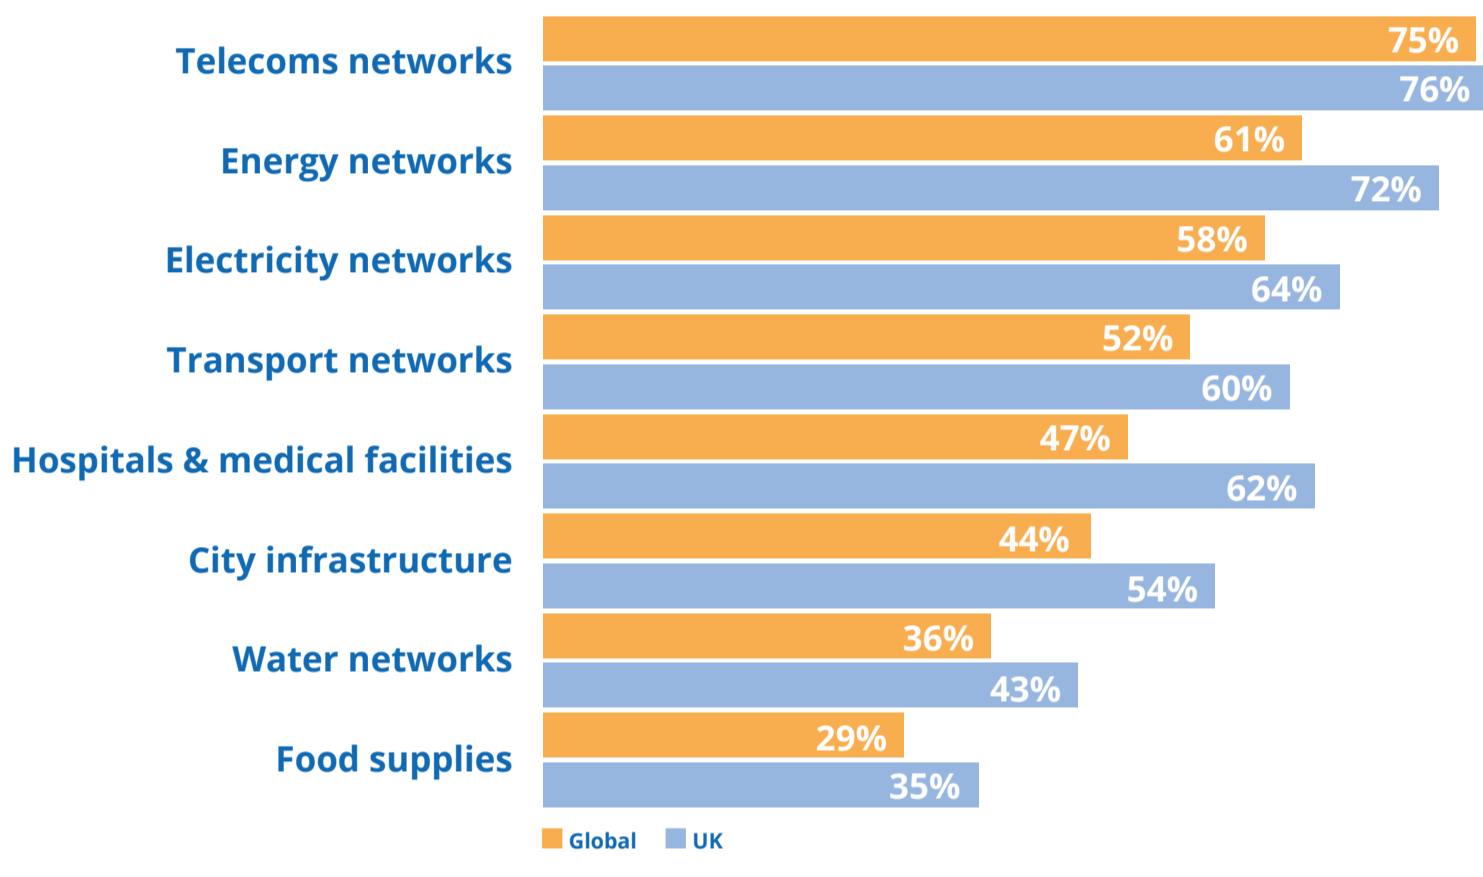

CYBERSECURITY AWARENESS REMAINS HIGH AMONG UK ORGANISATIONS

3 of the top 5 risks identified relate to cybersecurity

- 1 Economic or financial crises (global: 51%)
- 2 Cyber attacks on your organisation (global: 43%)
- 3 Cyber attacks on critical infrastructure like energy, transport, telecoms or water networks (global: 35%)
- 4 Losing company data/data theft (global: 37%)
- 5 Shortage of skills (global: 31%)

INDUSTRY SECTORS MOST VULNERABLE TO CYBERCRIMINALS

BUSINESSES WANT TO DO SOMETHING ABOUT IT

More than half say strong cybersecurity is absolutely vital

On a scale of 1-5, where 1 is not important at all and 5 is absolutely vital

BUT UK ORGANISATIONS ARE FAILING TO MAKE PROGRESS WITH CYBERSECURITY...

33% would rather pay a ransom to a hacker than invest more in security, a rise of 12% since 2018

16.5% The percentage of operations budget spent on security has fallen by nearly 1% to 16.5% in 2019

70% have an information security policy, down from 77% in 2018. 47% say employees are fully aware of such a policy

60% have an incident response plan in the event of a security breach or non-compliance of regulations, a 3% drop

44% believe cybersecurity "is the IT department's problem and not the wider business"

PROGRESS WITH CYBERSECURITY GOOD PRACTICE HAS STALLED

The NTT Security Risk:Value Index, which measures cybersecurity good practice on a scale of -41 (worst) to +27 (best), is static at +3 for 2018 and 2019
