

YOUR VOICE. YOUR LIFE. YOUR TIME.

Digital assistants and voice-controlled speakers (VC speakers) are revolutionizing the way we live, enabling a better quality of life for all.

Get what you want, when you want – stream music, be up-to-the-minute with news, call friends hands-free, dictate emails, control your smart home and much, much more ...

The benefits of VC speakers are as numerous as they are far-reaching – as this recent independent survey from the U.K. shows.*

SATISFACTION GUARANTEED:

77%

77% of VC users cite **sound quality** as their main **reason for satisfaction**, especially for **music and audio streaming**.

64%

of people say they **began using their VC speaker more** once they **realized how effective it was**.

TAKE MORE CONTROL:

34%

of respondents say their **VC speaker saves time**.

GET MORE OUT OF LIFE:

32%

of respondents say their **VC speaker helps pass the time** when they are feeling bored or lonely.

40%

say that technology **makes them feel more relaxed**.

ENDLESS POSSIBILITIES:

24%

of respondents use their device as a **kitchen assistant**.

OUR QUALITY. YOUR CHOICE.

With **more than**

70 YEARS

of **audio and innovation expertise**, HARMAN knows how to deliver **superior sound** and **design for superior living** through a **broad choice of AI platforms** and **legendary audio brands**.

JBL LINK View:** the first smart speaker to incorporate the Google Assistant with a visual display so the home listening experience goes one step further. View photos, stream videos, scan recipes and video call friends...hands free... through the power of voice.

JBL EVEREST™ GA headphones series: with built-in Google Assistant gives people full control of the premium listening experience on headphones. Use voice commands to receive notifications and information without even looking at a phone.

Harman Kardon Allure speakers: combine iconic Harman Kardon sound and design with Amazon Alexa voice resulting in a rich listening experience that captivates music lovers.

Harman Kardon Invoke™: with Harman Kardon's rich audio heritage and Cortana's intelligence, Invoke is designed for busy people balancing the competing demands of work and home.

GET MORE OUT OF LIFE. LISTEN MORE WITH HARMAN.
